

**Embracing Efficiency**

Established in 2001, Saudi Building and Construction Management (SBCM) stands as a premier provider of construction services throughout the Kingdom of Saudi Arabia.

SBCM has a distinguished track record characterized by the successful execution of milestone projects and the establishment of enduring relationships that we have forged with our clients.

Our services encompass the entire development spectrum and embody a **"Glocal"** approach. This term signifies our global exposure through a network of affiliations, coupled with a profound understanding of the local markets. This enables us to consistently deliver world-class projects across the Kingdom.

At the core of our business model lies efficiency, cost management, and customization. Employing a highly methodical approach, we assure that our clients achieve their unique project goals whilst creating sustainable assets that provide long-term value.

*"Glocal in nature, our success is derived from the combination of the best international practices and immersion in local context and culture."*

## Our Services

1. Design-Build Services.
2. Construction.
3. Project Management.

*"whilst methodic and process driven, our approach is shaped by the unique parameters of each and every projects."*

# 1. Design-Build Services

SBCM provides innovative turnkey design-build services to ensure the successful delivery of projects within specified timeframes and budgetary constraints.

Our solutions are tailored to address each project's feasibility, target budget, and internal rate of return (IRR), while remaining adaptable to market demands, global trends, and local cultural considerations.

Our deeply collaborative approach encompasses the entire construction development process, ultimately leading to the attainment of set targets and overarching project objectives.

## Our Involvement:

- Project programming.
- Conceptual design.
- Initial feasibility studies.
- Full engineering solutions.
- Value engineering exercise.
- Cost management services.
- Design development.
- Turnkey construction.

*"We combine innovation and experience to deliver truly customized efficient design-build solutions."*

## 2. Construction

Construction services are administered in a systematic and process-oriented manner.

Through close collaboration with our clients, we proficiently oversee project execution, navigating diverse legal and technical challenges, all while adhering to rigorous international quality standards.

### Advantages:

- In-house Design and Engineering Management.
- Track record dealing with International Consultants.
- Liaison with various operators.

*"Our approach ensures seamless execution in achieving a project's primary target of on-time delivery and the optimization of ROI."*

### 3. Project Management

SBCM utilizes industry experience and international techniques to ensure effective management of all project stakeholders, thereby achieving precise project objectives and success criteria within specified timeframes and relevant constraints.

#### **We effectively manage the entire project lifecycle:**

- Initiating.
- Planning.
- Stakeholder Management.
- Execution.
- Cost control.

*"Controlling all viable project parameters, ensures client objectives and project feasibility are met."*

## Our People

Our team of dedicated professionals, possessing extensive experience, stands as our greatest asset, ensuring adherence to project goals and constraints through effective project management.

Considering this commitment, SBCM prioritizes the continuous development of its employees and the cultivation of local talents through fostering initiatives for recruitment and growth.

Our profound local roots have been instrumental in establishing us as industry leaders. We are steadfast in our commitment to advancing the markets we serve and fulfilling our corporate social responsibilities.

*“The expert advice and technical skill provided by our team is the foundation of our brand.”*
